## **Video | Audio recording for your special event: 2**

### **Video editing**

**Additional editing: \$40 per hour fee (1 hour minimum).**

- combine and edit videos from other sources
- title sections
- add background music
- publishing
- add a photo slideshow -  
my photos plus other photos from guests SD Ram cards.
- Prior to the event, buy inexpensive SD memory cards online, and call guests in advance and ask them to take pictures.  
We can edit the guest pictures, later, combine into a slideshow, including music.
- add voiceover from you, or someone of your choosing.

## Video I Audio recording for your special event: 3

### **Audio (more controllable Sound) Stereo Sound recording equipment**

\$80 per Setup location

Note: if the party has a live, loud, rock-band, in order to avoid distorted sound, you might consider this extra sound recording equipment option.

- Cameraman remains Stationery if using this setup.
- **Video from one source, Audio from another source** (Stereo Cassette Tape Deck), from microphones. (Music and voice go from the microphones to the DVD)
- **(2) Quality Stereo Room Microphones**, plugged into simple mixer, and then plugged directly into the DVD recorder.
- The video will also be direct-connected to a DVD recorder.

**This will require an electrical hookup**, max range 100 ft.
